Specializing in web and mobile design. I have designed for both the iPhone and iPad. User Experience design, Information Architecture, Logo design available upon request

NewCity

Web & Mobile Designer

June 2008 - August 2010

Mid-level designer "with senior designer responsibilities." I design full-scale webpages for clients - based from wireframes, designing all graphics, information hierarchy, color palates, typography, and overall brand presence. Mobile design for native applications and websites, mainly with the iPhone.
